About
RENDER
INFOTECH

Since 2012

RENDER INFOTECH was incorporated in June 2012.

We have built a significant array of customers over time. An expanding base of clients have benefited from our expertise and repertoire of solutions. A people's and processes company, RENDER INFOTECH invests extensively in recruiting, nurturing and retaining talent.

Our Application Development model is a result of various innovations and enhancements, and is engineered to deliver a product that not only fulfills client's requirements, but also meets the global standards of software engineering. We build software that builds businesses. With our ability and experience in building highly complex but scalable and performance oriented software systems, we cater to the most demanding markets and customers. Our range of application design and integration services can be configured to meet your specific needs.

Overview

Render Infotech is a multi-disciplinary creative, communication, entertainment and technology development firm based in Bangalore, India with footprint in media, dotcom and entertainment industry . We expertise in Branding Media solutions, Creative Graphic Design, Web Development, Mobility Development, Digital Marketing, Motion Graphics, Digital Production, Post Production/VFX, Events Management, Movie Promotion and Artist management. Our overheads are low and our prices are keen. We deal with high profile brands and complicated projects but are equally happy providing solutions for small jobs that pose an intellectual challenge and require a creative solution.

Services

Render Infotech leverages deep industry experience to provide innovative solutions to its clients. Our client-driven approach and commitment towards exceeding expectation differentiates us from the rest of the market.

We specialize in web development outsourcing services. We have top-notch, dedicated, enthusiastic and talented professionals. We have a long history of satisfied customers across the globe. We offer wide range of solutions ranging from application development, graphic design to Quality Assurance and Testing.

We communicate effectively with our clients. We have great customer and technical support and will always be there to help, when you need us.

Mobile Apps Development

Despite of making a market presence quite late, Android operating system is fast catching up the popularity of smartphone devices. It is the most popular operating system for mobile application development and the best part is that it is open source. Hence, it is growing every day and we are proud participants of this fastest growing technology.

Our Android app development team is skilled at developing for Android Devices including phones, tablets and phablets. We optimize the design of the application based on your requirement so that the user experience in the application is personalized and has a minimal learning curve.

GRAPHIC DESIGNING

QA Services

We can provide you the best solutions and more control over the testing process, resulting in higher productivity of your existing teams and releases. Outsourcing testing work to specialized service providers is always the best solution for cost-cutting and building a high quality competitive product in the market.

Our Team

We understand that the people are the biggest asset of a software company. Keeping this in mind, we provide ample opportunity to grow professionally, work in an environment that each individual is comfortable in as well as relax during work.

Our team members work in conjunction with each other to provide the client with an efficient product with in the predefined time frame.

Development Team

Equipped with latest technologies and in-depth industry experience, our developers are fully capable of delivering highly productive, scalable and attractive solutions. Our developers have a minimum of 3 years of industry experience. We take extra care to make sure that our developers are exposed to the latest technologies so that they stay informed and enthusiastic about projects.

Designing Team

Whether it is representing your brand true to its spirit on a website, creating mobile app interface or developing customized advertisement content, we have got the expertise in-house. Our graphic and web designers let their designs speak for themselves. It is the work of our graphics team which makes our project look simple yet unique. Our designers are expert in tools like Photoshop, Adobe Illustrator, Corel, Flash, and Dreamweaver.

Networking Team

We have a team of expert network and system administrators. Networking team provides technical and operational support for client networks. We implement & maintain Backup and Disaster Recovery (BDR), implement & maintain network security, reduce downtime for systems and increase performance.

QA Team

The maximum responsibility is shouldered by the QA team. The projects developed by the developers are tested at various stages by the QA team. It is the QA team which ensures the delivery of an efficient product close to the client's expectations. Our team is well versed with black box, white box and automated testing techniques.
