Render Infotech's Android app for Retail Stores

A Complete Solution for Online orders,
door delivery orders, promotional offers
by offering android app in play store to
your customer in your own brand name.

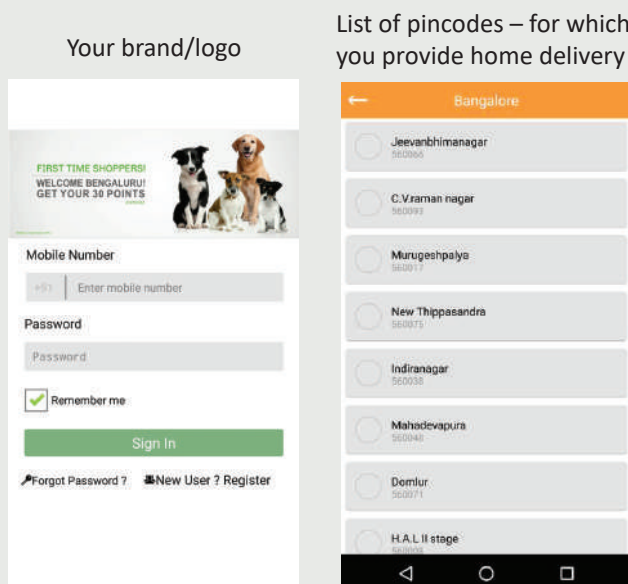

In the Google Play Store (android)

- Your customers can search for the app in the play store with your brand name
- Your customers can download the app from play store and avail free online booking, hassle free booking, and avail your free door step delivery options by placing orders through the app.
- You could promote your own brand name android app through your seasonal flyers, you could also post flyer behind your bill counter (Now we are available in Play store)

Login Screen, Pincode wise delivery availability options

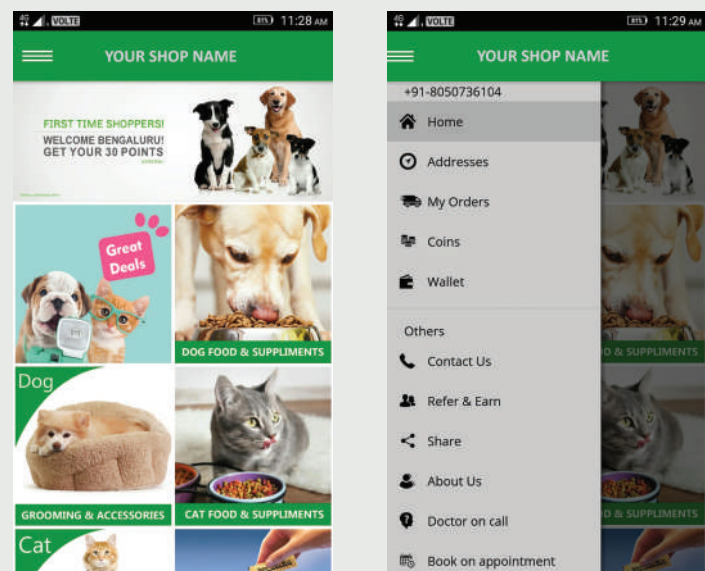

We allow only genuine customers inside the app

Step1: From the list of available pincodes added by your backend team, your customer can choose from

Step2: Register/login with the app only for the first time

Wide range of Category to choose from

We can also customize the categories as per your requirements

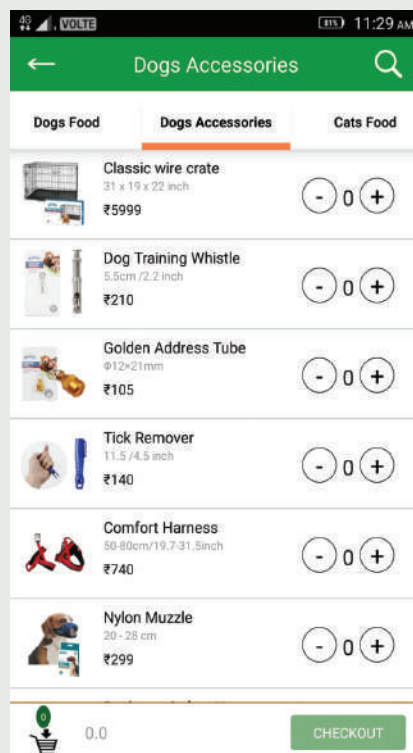

Wide range of Products to choose from. Retail Store can add the product images, description, price from the backend

Your customers can add products from multiple categories to the cart and checkout

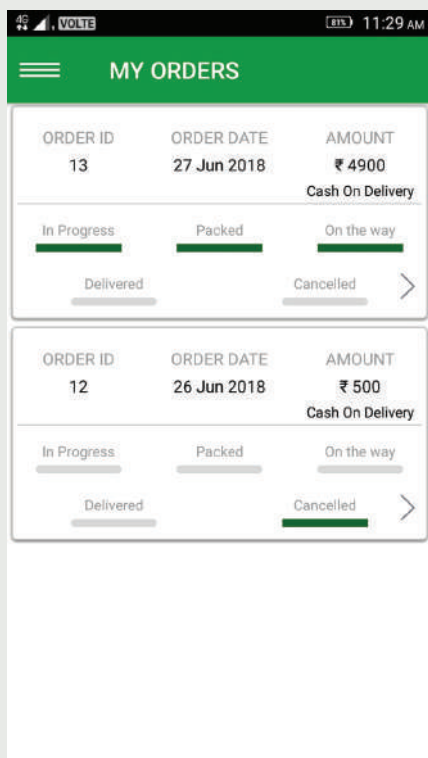

We also have time slot option, from the backend you could mention the maximum no of order you take from each slot

Ex: 9am to 12am - 10 orders

Once the maximum orders are received, the slot gets block. Customers will have an option to choose from any available slot for next three days

Customers can view the orders placed, status of order

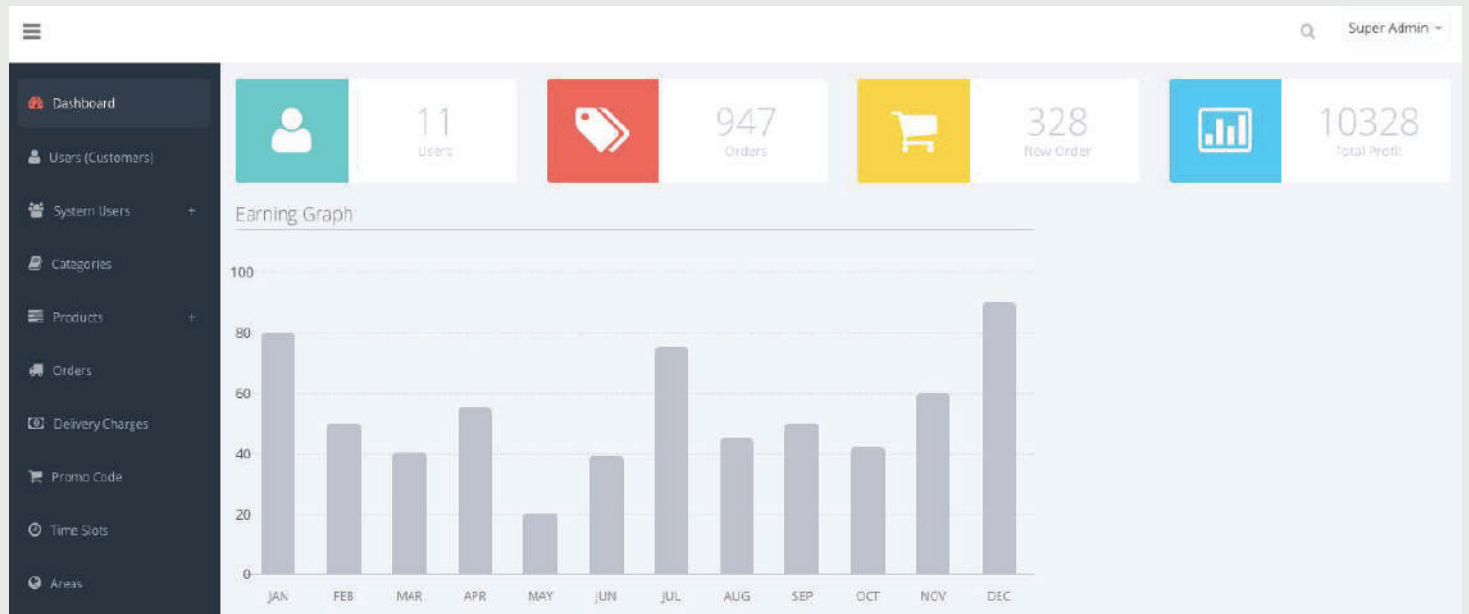

Each of these orders received will be updated in the Retail store backend

The status of each order received can be changed from the Retail store backend

Customers will have an option to cancel the order when it is in progress stage only.

Backend (web based login)

Backend options – Add products, View Orders Received, Add delivery chargers, Add Promotional codes, add time slots, add pin-code of delivery availability

Software Recommended

- Retail Stores & Departmental stores
- Grocery Stores
- Chocolates & Cake Shops
- Any business providing delivery option on goods
